

# Automate Your Testing and Certification Program

Kryterion partners with Accredible to bring Webassessor users a native integration that automates the issuance of digital certificates and badges straight from Webassessor.

Kryterion delivers and develops certifications worldwide. Accredible has issues over 2 Million digital certifications and badges on behalf of MIT, Google, Rosetta Stone, and Kaplan University and more. This partnership allows your clients to share their successes with the world.

## Kryterion Integration

Fully automated issuance  
based on Kryterion  
Webassessor completion  
criteria

## Digital Certificates & Badges

Issue multiple credentials to a user  
sharing/engagement features and  
analytics

Plans from  
**\$0.96/user per year**  
with volume discounts

# Automated, Secure & Shareable Credentials

## **Automate Your Issuance from Kryterion Webassessor**

Accredible automates the creation, delivery, and management of credentials to recipients straight from Webassessor with no development needed from your team!

## **Increased Security & 1-step Verification**

Third parties can verify Accredible credentials in real time with 1-click. Add an extra layer of security using blockchain technology so your credential records are always secure.

## **Social Sharing**

Accredible certificates and badges can be added and shared across 170+ different platforms including LinkedIn, X and Facebook.

## **Full-Featured White-Labeling**

White-label the complete experience of receiving and interacting with a certificate or badge to fit your organization's branding and provide an extra layer of trust to viewers.

## **Next Steps? Contact us.**

Before taking advantage of Accredible's badge and certificate service, Kryterion clients must first upgrade to Kryterion Web Services. For more details, new clients should reach out to their Kryterion Business Development Executive.

Existing Clients should contact their Kryterion Customer Success Manager. Book a call with Accredible's sales team to talk about your setup specifics: larger volume discounts, SSO, or specific contract terms. Be sure to mention offer code KRYBADGE to claim your special, discounted rate listed above.
